Susanne M. Foulk
1137 Huntington Dr. Suite A
South Pasadena, CA 91030

Dear Ms. Foulk:

It was great meeting with you yesterday regarding your organization and future partnerships with Rosemary Children's Services. As you know, Rosemary Children's Services is a non-profit agency that was founded in the 1920's that was originally an orphanage for wayward girls. We have grown to become a residential program for teenage girls referred to us through the Department of Probation and Department of Children and Family Services. In addition to our residential program, we also have an on-grounds school, a mental health program and a foster family agency that serves approximately 150 kids.

We wanted to write to express our interest and our support in collaborating with you on a "mentor tutor" program for our residential and foster care children. As you are aware, many children that are connected with the Department of Children and Family Services have turbulent academic histories, as some of them have moved often and some are behind in school. We agree that a "mentor tutor" program would benefit this type of student greatly, and are enthusiastic about a possible collaboration. We would love for you to stay in contact with our organization and let us know how we can be involved.

Sincerely,

Megan E. Brown
Director of Education
Rosemary Children's Services
